MEMORANDUM

To:	Town council
From:	Karl W. Bohne, Jr.
Date:	November 21, 2022
Re:	Sunshine Law/Public Records Law/Quasi-Judicial Proceedings/Voting Conflicts

- I. The Florida Sunshine Law is contained in Chapter 286 of the Florida Statutes.
 - A. What public agencies are covered by the Sunshine Law?

The courts have expressed a view that the legislature intended to extend the application of the Sunshine Law so as to bind every board or commission of the state or of any county or political subdivision over which it has dominion and control. This means that the Sunshine Law is applicable to any government at the municipal as well as the state and county levels. The Sunshine Law applies to the Town Council.

Section 286.011, F.S., provides in pertinent part:

(1) All meetings of any board or commission of any state agency or authority or of any agency or authority of any county, municipal corporation, or political subdivision, except as otherwise provided in the Constitution, at which official acts are to be taken are declared to be public meetings open to the public at all times, and no resolution, rule, or formal action shall be considered binding except as taken or made at such meeting.

1. What is meeting subject to the Sunshine Law?

The Sunshine Law extends to the **discussions** and **deliberations** as well as the formal action taken by a public board or commission. There is no requirement that a quorum be present for a meeting of members of a public board or commission to be subject to the Sunshine Law.

Instead, the law is applicable to any gathering, whether formal or casual, of two or more members of the same board or commission to discuss some matter on which foreseeable action will be taken by the board or commission. The Sunshine Law covers every thought, affirmative act and the entire decision making process. *Times Publishing Company v.*

Williams, 222 So. 2d 470, 473 (Fla. 2d DCA 1969), disapproved in part on other grounds, Neu v. Miami Herald Publishing Company, 462 So. 2d 821 (Fla. 1985)

2. Can the Sunshine Law apply to a single individual or a situation where two members are not actually present?

While ordinarily Florida Statutes 286.011 is applicable to two or more members of the same board or commission, certain factual situations have arisen where the presence of two individuals may not always be necessary in order for a violation of law to occur. Courts have expressed a view that the Statute should be construed so as to frustrate <u>all</u> evasive devises. *City of Miami Beach v. Berns, 245 So. 2d 38 (Fla. 1971); Blackford v. School Board of Orange County, 375 So. 2d 578 (Fla. 5th DCA 1979); Wolfson v. State, 344 So. 2d 611 (Fla. 2d DCA 1977) and Canney v. Board of Public Instruction of Alachua County, 278 So. 2d 260, 264 (Fla. 1973)*

In one case, the use of memoranda to conduct city business was held to be subject to the Sunshine Law. A member of a city commission initiated a memorandum reflecting his thoughts on a given subject, and appended to this memo a writing space for other members to concur or disapprove in the position taken. The originator of the memorandum then placed it in a receptacle at the offices of the public body. It was determined that this was a violation of the Sunshine Law and constituted a meeting between two or more members. *Inf. Op. to Blair, May 29, 1973. And see Leach-Wells v. City of Bradenton, 734 So. 2d 1168, 1171 (Fla. 2d DCA 1999)*

A meeting between individuals who are members of different boards is not subject to the Sunshine Law unless one or more of the individuals has been delegated the authority to act on behalf of his respective board. For example, an individual town council member may meet privately with an individual member of the planning and zoning board to discuss town issues. Since two or more members of either board are not present, there was is violation because no delegation of the decision making authority had been made and neither member was not acting as a liaison between members of the respective boards. AGO 92-79. Accord Inf. Op. to Batchelor, May 27, 1982. See also, 72-158. Cf. AGO 71-295, cautioning that "[p]ublic bodies should avoid secret meetings, from which the public and the press are effectively excluded, preceding official meetings, even though such secret meetings are held ostensibly for purely social purposes only and with the understanding that the members of the public body will, in good faith, attempt to avoid any discussion of official business.

Additionally the use of non-members as liaisons between board members

of the same board is a violation of the Sunshine Law. These generally create *de facto* meetings in violation of the sunshine law. See AGO 74-47 (*city manager is not a member of the city council and thus may meet with individual council members; however, the manager may not act as a liaison for board members by circulating information and thoughts of individual council members). See also Inf. Op. to Goren, October 28, 2009 (while individual city commissioners may seek advice or information from staff, city should be cognizant of the potential that commissioners seeking clarification by follow-up with staff when staff responses are provided to all commissioners could be considered to have participated in a de facto meeting of the commissioners by using staff as a conduit between commissioners).*

- B. To what agency actions or activities is the Sunshine Law directed?
 - 1. Does the term "meeting" include such things as briefing sessions, workshop meetings, informal discussions and other meetings of the public body where no formal vote is taken?

The answer to this question is "yes". The law is applicable to any gathering where the members deal with some matter on which foreseeable actions will be taken by the board. The attorney general has determined that gatherings such as workshop meetings, conference sessions or meetings, conciliation conferences, fact finding decisions, executive work sessions, and courtesy meetings are all subject to the commands of the Sunshine Law. Additionally, the law is applicable to all deliberations of the public body..

C. May public officials meet together at luncheon meetings, social gatherings, and inspection trips?

Luncheon meetings, social gatherings and the like would not be subject to the Sunshine Law merely because of the presence of two or more members of a board or commission <u>IF</u> there was no discussion among the public officials relating to public business or foreseeable action which would be taken by the board. *AGO* 92-79. Accord Inf. Op. to Batchelor, May 27, 1982. See also, 72-158.

1. Are telephone conversations within the scope of the Sunshine Law?

Telephone conversations between members of a public body are illegal if the conversation is held to discuss public business in a place inaccessible to members of the public and press for the specific purpose of avoiding public scrutiny. See State v. Childers, No. 02-21939-MMC; 02-21940-MMB (Escambia Co. Ct. June 5, 2003), per curiam affirmed, 886 So. 2d 229 (Fla. 1st DCA 2004) (private telephone conversation during which two county commissioners and the supervisor of elections discussed redistricting violated the Sunshine Law).

2. Are the uses of computers and other electronic medium subject to the Sunshine Law?

The use of computers or in any case any type of electronic medium, emails twitter, Facebook, Twitter, etc., to carry out public business, by members of a public board or commission to communicate amongst themselves on issues pending before the board is subject to the Sunshine Law. *See AGO* 89-39

- 3. Are consultations with legal counsel subject to the Sunshine Law?
 - (a) A governmental body may meet in private with its attorney to discuss pending litigation to which the entity is presently a party for a court or administrative agency, provided that the following conditions are met:
 - i. The entity's attorney shall advice the entity at a public meeting that he desires advice concerning litigation.
 - ii. The subject matter of the meeting shall be confined to settlement negotiations or strategy sessions related to litigation expenditures.
 - iii. The entire session shall be recorded by a certified court reporter. Thereafter, the court reporter's notes shall be fully transcribed and filed with the entity's clerk within a reasonable time after the meeting.
 - iv. The entity shall give reasonable public notice of the time and date of the attorney/client session and the names of persons who will be attending the session.
 - *v.* The transcript shall be made part of the public records upon conclusion of the litigation. *See Section 286.011(8), Florida Statures*

4. Inaudible discussions.

A violation of the sunshine law may occur if, during the meeting or during a recess, board members discuss issues before the board in a manner not generally audible to the public attending the meeting. Discussions of public business which are audible to a select few at the dais may violate the openness requirements of the law. In AGO 71-159, the Attorney General's Office advised that discussions of public business which are audible only to "a select few" who are at the table with the board members may violate the "openness" requirement of the law. Cf. Citizens for Sunshine, Inc. v. City of Sarasota, No. 2010CA4387NC (Fla. 12th Cir. Ct. February 27, 2012) (two members of a civil service board violated the Sunshine Law when they held a private discussion concerning a pending employment appeal during a recess of a board meeting).

With that in mind inaudible discussions before, during and after a meeting between board members discussing issues before the board would be problematic.

D. Appearance at Council meeting via telephone

Based on several Attorney General Opinions a Council member who is unable to attend a Council Meeting due to illness or physical disability or with a finding of extra-ordinary circumstances by the respective board may do so via telephone and may also cast a vote via telephone. It has been determined that an absence due to illness or physical disability is an "extraordinary circumstance" which justifies such attendance via telephone. But those are not the only 2 circumstances which constitute extra-ordinary circumstances. The attendance via telephone cannot be used to establish a quorum. So there must be a quorum present (in our case 3 members). If the quorum is present then the telephone appearance is acceptable. The Council member appearing by phone must be able to hear the meeting and must be able to be heard by the public. The minutes must reflect that the Council member is appearing via telephone due to illness or physical disability or other extra-ordinary circumstances, as the case may be. AGO 03-41, AGO 94-55. And see AGO s 92-44 (participation and voting by ill county commissioner), and 02-82 (physically-disabled city advisory committee members participating and voting by electronic means).

E. Curing Violations

It has long been held that Sunshine law violations can be cured by independent, final action done completely in the sunshine. However, such meetings must be more than a perfunctory or ceremonial ratification. Based on numerous cases discussing the ability to cure a violation it has been the thought that if you "cure"

the matter the violation no longer exists.

When a violation of the sunshine law occurs the act taken is void. The "act" can be cured at a subsequent meeting. The curing of the act does not absolve the public body of its responsibility for violating the sunshine law. The "cure" merely is a way to salvage o void act by reconsidering it in the sunshine. This seems to mean that the criminal and non-criminal sanctions may still apply to the violators. Anderson v. City of St. Pete Beach, 161 So.3d 548, 553-554 (Fla. 2d DCA 2014), noting that "even when an illicit action is 'cured' it does not absolve a public body of its responsibility for violating the Sunshine Law in the first instance; it simply provides a way to salvage a void act by reconsidering it in Sunshine").

- II. Florida's Public Records Law is contained in Chapter 119 of the Florida Statutes.
 - A. Materials of Public Records

In 119.011(1) of the Florida Statutes defines Public Records to include all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency.

Therefore, any material regardless of form which is used to perpetuate or communicate or formulize knowledge and is received by an agency or individual council member in connection with official business is a public record. *Shevin v. Byron, Harless, Schaffer, Reid and Associates, Inc., 379 So. 2d 633, 640 (Fla. 1980).*

Any documentation an individual member receives from any source and the documentation is for the purpose of communicating public business this document must be a public record and given to the clerk of the Town. This applies to records received by a member at Town hall or anywhere else. So long as the record is intended to communicate official business it must be maintained as a public record.

Any communication that can be saved in a hard format would also be a public record. This includes emails, twitter messages, texted messages, Facebook postings, or any similar type of communications. The fact that you may have received such a communication on a private account does not exempt it from being a public record. If the contact relates to public business then it is a public record. Purely private matters are not public records. The term "public record" is not limited to traditional written documents. As the statutory definition states, "tapes, photographs, films, sound recordings, data processing software, or

other material, regardless of the physical form, characteristics, or means of transmission" can all constitute public records. And see National Collegiate Athletic Association v. Associated Press, 18 So. 3d 1201 (Fla. 1st DCA 2009), review denied, 37 So. 3d 848 (Fla. 2010) ("public records law is not limited to paper documents but applies, as well, to documents that exist only in digital form"). Cf. Church of Scientology Flag Service Org., Inc. v. Wood, No. 97-688CI-07 (Fla. 6th Cir. Ct. February 27, 1997) (physical specimens relating to an autopsy are not public records because in order to constitute a "public record" for purposes of Ch. 119, "the record itself must be susceptible of some form of copying").

Information stored in a public agency's computer "is as much a public record as a written page in a book or a tabulation in a file stored in a filing cabinet" *Seigle v. Barry*, 422 So. 2d 63, 65 (Fla. 4th DCA 1982), *review denied*, 431 So. 2d 988 (Fla. 1983). *And see National Collegiate Athletic Association v. Associated Press*, 18 So. 3d 1201 (Fla. 1st DCA 2009), *review denied*, 37 So. 3d 848 (Fla. 2010) (public records law is not limited to paper documents but applies to documents that exist only in digital form); AGO 98-54 (application and disciplinary reports maintained in a computer system operated by a national securities dealers association which are received electronically by state agency for use in licensing and regulating securities dealers doing business in Florida are public records); AGO 91-61 (agency must provide copy of computer disk in response to Ch. 119 request); and AGO 85-03 (computer tape subject to disclosure).

"E-mail" messages made or received by agency employees in connection with official business are public records and subject to disclosure in the absence of an exemption.

The nature of information--that is, that it is electronically generated and transferred--has been determined not to alter its character as a public record under the Public Records Act. Thus, the e-mail communication of factual background information and position papers from one official to another is a public record and should be retained in accordance with the retention schedule for other records relating to performance of the agency's functions and formulation of policy. Id. Similarly, e-mails sent by city commissioners in connection with the transaction of official business are public records subject to disclosure even though the e-mails contain undisclosed or blind recipients and their e-mail addresses.

The Florida Supreme Court has ruled that private e-mail stored in government computers does not automatically become a public record by virtue of that storage. "Just as an agency cannot circumvent the Public Records Act by allowing a private entity to maintain physical custody of documents that fall within the definition of 'public records,' . . . private documents cannot be deemed public records solely by virtue of their placement on an agency- owned computer." The Court cautioned, however, that the case before it did not involve e-mails "that

may have been isolated by a government employee whose job required him or her to locate employee misuse of government computers." *State v. City of Clearwater*, 863 So. 2d 149, 151 (Fla. 2003)

III. Quasi Judicial Proceedings

The Town Council will be asked on occasions, to decide matters that come before it as a quasi-judicial body. The council sits as the Judge of the evidence and makes its determination based on competent substantial evidence. An example of matters that are considered as quasi-judicial, include, but are not limited to, site plan decisions, subdivision plat decisions, permitting decisions, special exceptions, certain rezonings, etc.

The evidence that meets this standard is more than mere opinion. It must be fact based opinion. This usually comes in the form of expert testimony. Unsupported opinions do not rise to the level of competent substantial evidence. Put another way, opinions that are not based on facts are generally not regarded as competent substantial evidence.

Furthermore, as a fact finding body you must abide by certain rules. You cannot prejudge a matter. You must hear all the evidence before you came to a conclusion. You should refrain from exparte communication. This means you should refrain from viewing property, talking to witnesses, or receiving documents outside the public hearing. If you are presented with an exparte communication such communication should be revealed and disclosed at the beginning of the quasi-judicial hearing. This gives all interested parties notice of the communication and a chance to further inquire.

Your decision must be based on what the code states. You must refrain from interjecting your opinions on the wisdom of what a code prescribes. Your opinions are irrelevant. Furthermore, the opinions of others on the wisdom of a code are equally irrelevant. Ambiguities in a code must be interpreted in favor of a property owner and construed against the Town.

IV. Voting Conflicts

A voting conflict arises when an official is called upon to vote on:

any measure which would inure to his or her special private gain or loss; which he or she knows would inure to the special private gain or loss of any principal by whom he or she is retained or to the parent organization or subsidiary of a corporate principal by which he or she is retained, or which he or she knows would inure to the special private gain or loss of a relative or business associate of the public officer. Such public officer shall, prior to the vote being taken, publicly state to the assembly the nature of the officer's interest in the matter from which he or she is abstaining from voting and, within 15 days after the vote occurs, disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who shall incorporate the memorandum in the minutes.

If a voting conflict exists and the appointed local official will not participate in the measure then the official must:

- a. Abstain from voting;
- b. Before the vote, publically state the nature of the conflict; and
- c. Within 15 days of the vote, file a voting conflict memorandum.

If the official desires to participate in the discussions then the official must:

a. Abstain;

b. File the voting conflict memorandum prior to the meeting in which case a copy must be provided to the other members and it must be read at the next meeting after the filing; or

c. If the disclosure is not made prior to the meeting or the conflict was unknown prior to the meeting; the official must make the disclosure prior to participating followed by the memorandum within 15 days after the disclosure which shall be given to the other members and read at the next meeting.

If you are faced with a situation that involved a quasi-judicial matter and you are so biased that you can not be fair an objective you should abstain from voting. This is not a true voting conflict under Florida's Voting conflict law but it is a matter of Due Process for an applicant. As I previously stated an applicant who presents a quasi-judicial matter to the Council is entitled to have the matter reviewed by a fair and impartial council. If a council member is biased against a matter then they should not vote on it.

SUBJECT: FY 21/22 Final Budget Amendment (Ordinance 2022-10) – 2nd Reading

BACKGROUND/HISTORY:

It is within normal governmental accounting practices to perform necessary year-end budgetary amendments up to 60 days after the close of the fiscal year.

Historically, staff used a Budget Amendment Ordinance to reflect the shift of budgeted funds from one department to another. We have an internal process to track when we reallocate funds within each department. This final FY22 Budget Amendment #5 is uses to close out the fiscal year 2021/2022.

As of September 30, 2020, overall expenditures for the amended fiscal year 2021/2022 budgeted funds totaled \$4,136,534. Total expenditures for all funds totaled. \$2,432,010.68. The overall budget, which includes General Fund, American Rescue Plan Act Fund, Building Fund, and Stormwater funds, ends with an unexpended balance of 1,557,117.27. The following amounts separate the allocations of fund balance for these four fund balances, representing the differences in revenues and expenditures per the table attached.

A majority of the year end fund balance was due from the United States Treasury revenue allocation of The American Rescue Plan Act (ARPA), now termed at the State and Local Fiscal Recovery Fund (SLFRF), totaling 1,595,219. All SLFRF funds have been allocated to projects to be completed by 2026 using the standard allowance deduction approved by Town Council this past fiscal year.

Some revenue sources exceeded the budgeted expectation of receipt of funds for the Town's total operating budget. Those notable sources, exceeding revenues budgets by 10%, were Utility Gas Tax, Building Permits, Electric – Franchise Fee, Water – Franchise Fee, State Revenue Sharing, BTR – Brevard County, Special Events, Golf Cart Registration, Fines/Forfeiture, and Sale of Surplus Materials. Revenues that trended downward, up to 70% than budgeted, were Background Checks, Paving Assessment receivables, Interest, Donations, Insurances rebate, and miscellaneous revenue, and Debt Proceeds (SRF reimbursement).

In the approved FY21/22 budget, the Town had planned to use Fund Balances from TIFT, Building, and Stormwater Funds; these fund balances were not utilized as planned; funds remain in each fund balance.

Staff has requested a final reimbursement to Florida Department of Environmental Protection, for the balance of the loan for payments to the contractor for the Stormwater Master Plan, it will occur in FY23; hence there were no funds received in FY22.

The building department budget had allocated to use \$64,722.00 of fund reserves on deposit to expend for the services of a Building Department Official/Inspection; the executed contract was unfilled by the contractor, Safe built, due to a lack of human resources available to serve the Town. The Town was able to utilize another contractor for these services beginning in July 2022, the building fund will decrease with these expenses in FY23.

The Town budgeted funds for potential road paving and improvement projects, those projects will not be realized until FY23, fund balance was not utilized nor requested from TIFT as budgeted. Additional general fund revenues received and not restricted will go into reserves.

Stormwater funds budgeted for projects that were not completed in this fiscal year will be directed back into the restricted reserves account for stormwater projects.

Expenditures overall attributed to the general fund departments were within or below their budgeted allocation for personnel and operational expenses. However, Legal services experienced a significant increase due to land use cases in litigation, contributing the department's year end account to exceed the budgeted \$60,000 by \$40,429. Legal expenses totaled \$100,030 for the fiscal year.

Streets and Roads and Parks budget had reduced expenditures due to unfilled positions throughout the fiscal year, contributing \$38,000 to the deficit of the legal expenses. Parks budget included at \$20,000 expense for replacement mowers, that was not expended due to manufacturer engine shortages last year: also contributing to the overall deficit in general fund expenses for legal services.

Separation of employees during the fiscal year in Streets and Roads and Parks, with final payouts of Other Employee Benefits and Personnel Wages, were absorbed within the budget allocations.

Additionally, The General Fund will have positive fund balance for reserves to be deposited totaling \$130,738.44, these are attributed to staff being fiscally responsible to contribute to a balanced and within budget allocations while and maintaining Town operations.

No funds are necessary to be utilized from unrestricted General Fund reserves on deposit to balance the 21/22 budget.

This ordinance will be legally advertised for a Public Hearing to be held at the next meeting for the second reading on 11/21/2022.

FINANCIAL IMPACT:

Amend the final budget from \$3,338,915 to \$4,<u>136,534.00</u> as stated in the ordinance Re-allocate department fund balance savings to Legal Services and General Government accounts exceeding their budget expenses, totaling \$42,716.

Direct funds as stated in the ordinance to specific restricted and unrestricted funds on deposit

SUBJECT: Discuss Restricting Increased Revenues to a Streets and Roads Fund

- c. SPM/Interim Treasurer Morrell has provided figures that show options on how to dedicate future funds, including options for dedicating a set portion of the milage rate, or a set dollar amount.
