

ROADWAY IMPROVEMENTS

Financial Project
Identification No.:
413761-1

State Road (S.R.) 514 (Malabar Road) from Corey Road to Weber Road

Brevard County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is making roadway improvements on Malabar Road between Corey Road and Weber Road in the town of Malabar. The project will add a westbound turn lane at Weber Road and eastbound and westbound turn lanes at Corey Road. These improvements include widening the roadway to accommodate the new turn lanes, drainage upgrades, resurfacing, pavement markings and guardrail installation.

WHAT TO EXPECT

Motorists should expect single lane closures eastbound and westbound on Malabar Road between 8 p.m. and 6:30 a.m. There will also be a need for temporary nighttime detours in some areas. Electronic message boards and other signage will help direct traffic during the closures.

Uneven pavement is a common and unavoidable roadway condition that will occur during paving operations. Motorists are asked to use extra caution while driving through the work zone. These road conditions during construction are short-term and will become less apparent as the project progresses.

Please note that the level of work activity will vary during different phases of construction, and paving operations will be intermittent. Construction schedules may change due to weather or other unexpected conditions. To stay up to date on traffic impacts, including lane closures and detours, please visit the project webpage at, www.CFLRoads.com.

CONTRACTOR
DP Development, LLC

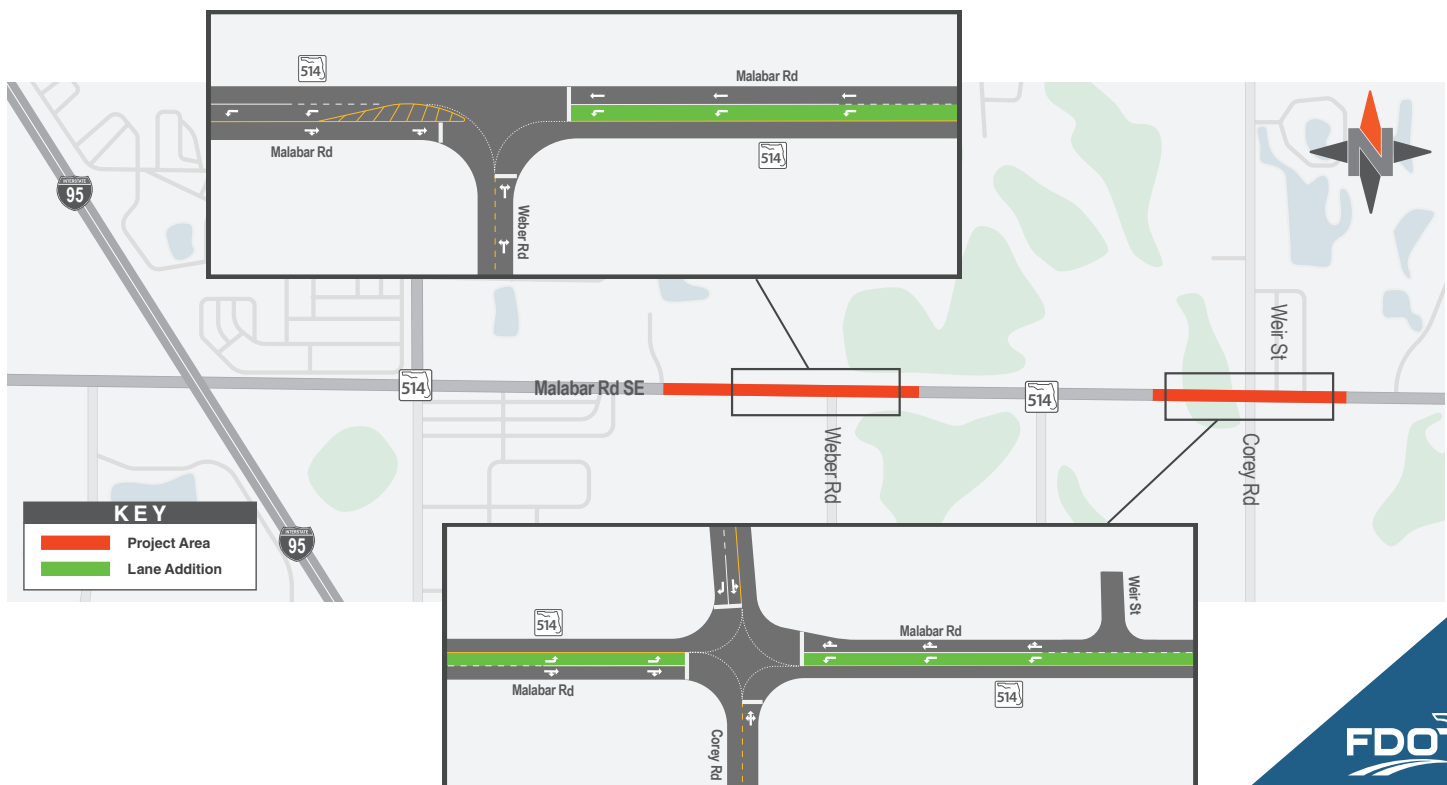

PROJECT COST
\$1.5 million

PROJECT START
Summer 2020

ESTIMATED COMPLETION
Spring 2021
