Fact Check: COVID-19 vaccines will not give you COVID-19

CORONAVIRUS DISEASE 2019
(COVID-19)

COVID-19 vaccines will not give you COVID-19.

RECEPTION

cdc.gov/coronavirus

COVID-19 vaccines help our bodies develop immunity to the virus that causes COVID-19 without us having to get the illness. Vaccines work with your immune system so your body will be ready to fight the virus if you are exposed. Sometimes after vaccination, the process of building immunity can cause symptoms, such as fever. These symptoms are normal and are a sign that the body is building immunity.
