

COVID-19 Community Report

Centennial Edition

Date: Wednesday, April 28, 2021

Time: 8:12 PM # 20-100

Choosing Safer Activities

	Unvaccinated People	Your Activity	Fully Vaccinated People
		Outdoor	
Safest		Walk, run, or bike outdoors with members of your household	
		Attend a small, outdoor gathering with fully vaccinated family and friends	
		Attend a small, outdoor gathering with fully vaccinated and unvaccinated people	
Less Safe		Dine at an outdoor restaurant with friends from multiple households	
Least Safe		Attend a crowded, outdoor event, like a live performance, parade, or sports event	

Get a COVID-19 vaccine

- Prevention measures not needed**
- Take prevention measures**
Fully vaccinated people: wear a mask. Unvaccinated people: wear a mask, stay 6 feet apart, and wash your hands.

- Safety levels assume the recommended prevention measures are followed, both by the individual and the venue (if applicable).
- CDC cannot provide the specific risk level for every activity in every community. It is important to consider your own personal situation and the risk to you, your family, and your community before venturing out.

Choosing Safer Activities

- [If you are fully vaccinated](#) you can start doing many things that you had stopped doing because of the pandemic, like exercise outdoors with members of your household without masks; or attend small, outdoor gatherings with other fully vaccinated people without masks.
- When choosing safer activities, consider how COVID-19 is spreading in your community, the number of people participating in the activity, and the location of the activity.
- Outdoor visits and activities are safer than indoor activities, and fully vaccinated people can participate in some indoor events safely, without much risk.
- If you haven't been vaccinated yet, [find a vaccine](#).
- According to the Director of the CDC: "When fully vaccinated against COVID-19, you can begin to enjoy many activities more safely. Most outdoor activities for vaccinated people are safe if unmasked. The more people who are vaccinated, the more steps we can take toward spending time with those we love, doing things we enjoy."

Florida COVID -19 Vaccine Priorities

(Revised 3/26, effective 4/5 per Executive Order 21-79)

Persons over 18 years of age

*All vaccines are approved for this age group

Persons 16 – 17 years of age

*Requires parental or legal guardian consent

*Pfizer is the only FDA vaccine approved for this age group

COVID-19 Vaccines Distributed by DOH Brevard at Viera
as of 4/28

Brevard County Updates

- Brevard County Government has a limited amount of funds to assist families who have lost a loved one due to Coronavirus. The [application for the program](#) is available at the Community Action Agency (Dr. Joe Lee Smith Community Center, 415 Stone Street, Cocoa, FL 32922), or [Brevard County's Housing and Human Services website](#).
 - Eligibility requirements include:
 - Cause of death on the death certificate must be directly or indirectly related to Coronavirus (COVID-19)
 - Example of indirect – heart attack (main) exacerbated by coronavirus
 - Brevard resident and household income below 150% of poverty (\$39,300 for a family of 4)
 - The [Emergency Rental Assistance Program](#) provides financial assistance and housing stability services for those impacted by COVID-19.
 - Eligibility requirements include:
 - Applicant is a resident of Brevard County and is below 80% of Area Median Income.
 - The applicant must sign all required documents or their application will be rejected/denied.
 - Documentation of all income from the entire Household as reported on the Household Income Section of the application (include 2 months of bank statements, paystubs, etc., or a 2020 tax return (IRS Form 1040)).
 - All members of a household must be accounted for in the application.
 - For applications filled out by hand, please make sure that the writing is clear and legible.

State and National Updates

- On Tuesday, April 27 Governor DeSantis signed [Executive Order 21-94](#), extending Florida's State of Emergency for COVID-19 response to June 26, 2021
- On Friday, April 23, following a thorough safety review by the CDC's Advisory Committee on Immunization Practices, it was the CDC have the recommended Johnson & Johnson vaccine pause be lifted and use of the vaccine should resume, Per the advisory committee:
 - Determined that the available data show that the vaccine's known and potential benefits outweigh its known and potential risks in individuals 18 years of age and older
 - Will add a warning label to note the potential risk for rare blood clots, especially in women ages 18-49
- On Tuesday, April 27 the CDC updated its recommendations for [Fully Vaccinated People](#):
 - No longer need to wear a mask outdoors, except in crowded settings and venues
 - Workers no longer need to be restricted from work following an exposure as long as they are asymptomatic
 - Residents of non-healthcare congregate settings no longer need to quarantine following a known exposure
 - Asymptomatic individuals without an exposure may be exempted from routine screening testing, if feasible
- Per the CDC, [as of April 28th, more than 235 million doses of vaccines have been administered in the United States and 43% of the entire United States population over the age of 18 has had at least one dose of a COVID vaccine.](#)
