

APPLICATION FOR LAND FILL PERMIT

Any site work adding more than 30 yards of material or disturbing more than 1,000 square feet of land shall not be undertaken without prior application, approval, and issuance of a permit by the Town in order to assure no adverse impacts will occur on adjacent lands and to assure appropriate erosion control measures are followed.

See Article VII, Site Plan Design and Article VIII, Surface Water Management.

State of FL License # (s):										Expiration:						

PURPOSE FOR CLEARING AND DESCRIPTION OF WORK

Clearly describe the type of fill and the reason for the fill. Include a copy of the survey indicating the area to be filled and how the proposed drainage of the parcel will hold the first one (1") inch stormwater runoff and then be directed to the Malabar drainage system. Silt fence will need to be constructed and maintained during this process until fill is stabilized and inspected. List quantity of fill. (loads & yards per truck).
