

## **New Malabar Newsletter Format**

The Town of Malabar will be moving our monthly Newsletter to an online format. Once a month, a new newsletter will be uploaded to the Town website, [Townofmalabar.org](http://Townofmalabar.org). A new feature to help residents is the new subscription option on our website. Residents can subscribe to receive an e-mail notification whenever a new newsletter is uploaded. Please help us spread the word by telling your neighbors!

## **New Public Works Vehicles**

During the last budget year, Malabar's Town Council made it a priority to update and upgrade our Town's Public Works equipment. Some of the older equipment was almost thirty years old! In the last two months, Malabar has taken delivery of 2 new pieces of equipment. A new 2021 F450 Super Duty Truck was delivered for the Public Works crew to service the Town. That vehicle will retire the 1993 utility truck completing its 27 years of service. The month before that, a new Payloader was delivered! A Hyundai HL930AXT has been added to the fleet, and is ready to work! This new payloader is replacing the 1985 Ford Backhoe/Front-end Loader which has been in service for over 35 years! Below are some photos of the new equipment. Look for them around Town working in our parks, repairing our roads, or maintaining our stormwater system.
